The first cohort: the initial submission

Go to www.rss.org.uk/cstat_revalidation2014 for details

The requirements of the initial submission included in an email sent on 27th January.

By 31st March select one of 3 options and reply to pac@rss.org.uk

- **Option A** : make declaration and return CPD summary for 2013
- **Option B** : unable to make declaration due to career break, extenuating circumstances, retirement
- **Option C** : do not wish to revalidate

Option A

I would like to revalidate and continue to hold the Chartered Statistician award from 1st January 2015 until my next revalidation date.

I affirm that I will continue to be professionally active, comply with the RSS CPD Policy and adhere to the RSS code of conduct. If my professional circumstances change such that I am not able to fulfil the above obligations, then I will contact the Society immediately.

I attach my CPD summary for the calendar year 2013 with my reply.

- *If you select this option you may be selected for audit and be required to submit further information about your professional experience and development in 2012 and 2013. You will be notified whether you have been selected for audit during April.*

Option B

I wish to continue to hold my Chartered Statistician award.

However due to a career break, extenuating circumstances or retirement I am unable to make the declaration described in Option A.

- *If you select this option, please provide a brief explanation of your circumstances.*
- *Note the guidance allows the Society the discretion to defer revalidation for up to 3 years in the cases of career breaks or extenuating circumstances. In the case of permanent retirement from professional activity, your Chartered Statistician status can be retained and revalidation is no longer required.*
- *If you select this option your entry on the professional register will reflect the fact that you are not professionally active.*

Option C

I do not wish to revalidate as I do not wish to continue to hold the Chartered Statistician award beyond 31st December 2014.

- *If you select this option it will be useful for the Society to know the primary reason for your decision. Please provide a brief comment.*

In summary

Revalidation is a professional appraisal process introduced with the objective of raising the value of the CStat award

It is intended to be a supportive process to encourage good professional practice

The intention is to minimise the extra work required from those managing their career progression as a professional statistician

It is a two-stage process; an initial submission by all, additional information requested from a sample selected for audit

If in doubt, contact us at pac@rss.org.uk for clarification and support
